FLAMING GAS JET CUTS OUT THIRD OF TELEPHONE SERVICE BURNS WORKMEN AND SERIOUSLY INTERRUPTS TRAFFIC

AUTO SPEEDERS GO TOO FAST IN FAIRFIELD

Sailors and Police Clash at League Island Navy Yard in Philadelphia. Shooting Followed Attempt by Officers to Arrest Ring-leaders — Every Effort Made to Run Cars With 1,500 Strikebreakers.

Subway and Elevated Employees of Rapid Transit Co. Called Out This Morning to Join Strikers, Effecting a Complete Tie-up — Fifty Imported Strikebreakers, Claiming False Representation, Deserted This Morning.

Cause of strike: Refusal of Rapid Transit Company to agree to these demands on the part of its motormen and conductors:

Recognition of union grievance committee. Privilege to purchase uniforms in open market. Greater day nine, maximum ten hours, to be completed with twelve hours. Time and a half time for extra work. Arbitration of all disputes. Fair hearing for men discharged and re-instatement when discharge is found to be unjust. Pay, 25 cents an hour.

Result of strike: Number of men idle, 4,000. Number of men at work, 2,000. Duration of strike, six days. Cost to company, \$300,000. Cost to men \$44,000.

Number persons injured, fifty. Number persons arrested, 300. Number strike-breakers, 1,500. Number of cars in service, 550. Number cars idle, 1,800.

(Special from United Press.) Philadelphia, June 3.—The subway and elevated employees of the Philadelphia Rapid Transit Company were called out at 9 o'clock this morning in the strike against the company and within ten minutes the tie-up on the line from Fifth street to Sixty-ninth street was complete. Special policemen and detectives from city hall were immediately dispatched to every subway and elevated station and after a delay of thirty minutes some of the trains were started with strike-breakers.

Rioting in Kensington was resumed again this morning and it is feared that the disorders will be even greater than those last night when the strike-breakers attacked several cars. At the League Island Navy Yard, twenty sailors clashed with the police early this morning and several shots were fired. The bluejackets boarded a north bound car and had hardly been seated when one of the party called "Scab" at the motorman.

One of the two policemen on guard on the car ordered them to keep quiet but the sailors refused to obey and laughed at the officers. The shooting followed an attempt by the officers to arrest one of the ringleaders. Attracted by the shooting, a crowd of marines came out from the yard and drove the sailors inside. With 1,500 strike-breakers in the city the company is making every effort to-day to run at least 600 of its surface cars.

Several hundred special policemen, half of them mounted on horseback, are on duty about the city. Because he sat in his private office all of last night and took absolutely no part in the rioting, the police to stop rioting in that section.

Lieutenant John Sykes of the 30th street station was to-day summarily suspended by Director Clay, pending a trial before a police board of inquiry. A crowd of disorderly persons kept the police busy in the lieutenant's district. Strike-breakers were dragged from their places by the mob.

In the hospitals to-day upwards of thirty riot victims lie on cots. The two most seriously injured are Policeman Joseph McLaughlin who received a concussion of the brain and William Talbot, whose head was bruised with a brick.

It was intimated this morning that the firemen in the power stations would be called out on a sympathetic strike this afternoon. Concerning the allegations of brutality against the police and the swearing in of special policemen by Director Clay, C. O. Pratt in charge of the strike said this morning: "There is no power stronger than the source from which it comes. Our reply to Director Clay's tactics is a direct appeal to the public. There have been eighteen public mass meetings."

There were 20 riots in various parts of the city last night and 40 cars were more or less badly torn up. In some cases after the cars had been beaten and driven off the wrecked cars were burned on the tracks. Angered because the transit company had attempted to run cars manned with strike-breakers, a mob of 6,000 persons hanged Mayor Reyburn in effigy from a trolley wire. Prompted by the rioting of last night Director Clay will probably again order the saloons of the city closed to-night at 6 o'clock.

Declaring that they had been brought here under false representations, fifty imported strike-breakers deserted at the barn in Frankfort to-day and gave themselves up at the strike her late residence. They were put on trains and sent back to New York. According to these men the detective agency which is providing transportation for them had hired them with the understanding that their services were required to start operations on a new road.

LADY PICKPOCKETS TO STATE PRISON

New Haven, June 3.—Sarah Thomas and Marie Davis, labeled by the police to be members of a gang of professional pickpockets, were arraigned in the Superior court today and sentenced to from one to five years in State prison. The women were charged with having stolen a diamond ring valued at \$200 from Lewis Cohen, a jeweler here.

Funeral services over the remains of Caroline, widow of Minot S. Hayes, were held this morning at her late residence, 123 Wood avenue, at 2 o'clock. Rev. Henry A. Davenport, pastor of the People's Presbyterian church, officiated. The interment was in Mountain Grove cemetery.

CARED FOR WOMAN FOR 20 YEARS; WERE ALLOWED \$8,600

Judge Morris B. Beardsley, Representing Coffey Estate, Appeals from Commissioners' Allowance to the Schemps.

Because the Commissioners appointed by the Probate Court of this city on the estate of Agnes Coffey allowed Adam Schemp and his wife \$8,600 for the care of Miss Coffey for over twenty years, Judge Morris B. Beardsley, executor of the estate, appealed from the finding and the appeal being heard in the Superior Court, civil side, this morning before Judge Lucien F. Burpee. Schemp was on the witness stand this morning and told the court that he raised Coffey and lived with them for over twenty years and that during that time she was often ill, sometimes requiring the attention of a physician, but more often his own care of her, staying up nights administering to her wants.

Socialists Incite Soldiers to Mutiny

(Special from United Press.) Paris, June 3.—Revolutionary Socialists flooded Paris today with posters of exhortation to the soldiers to join them to take the side of labor in clashes with the government. Those responsible for the posters will be punished on the ground of attempting to incite a mutiny if their identity can be established.

SECRETARY WILSON IS HONORED BY MCGILL UNIVERSITY

(Special from United Press.) Montreal, Canada, June 3.—The farmer's daughter should be educated to adorn the parlor, advise in the kitchen and help her mother. This was one of the homely little maxims with which Secretary Wilson of the United States Department of Agriculture regaled a large audience assembled at St. Anne De Bellevue, near here, today, on the occasion of the dedication of MacDonald College of McGill University. The Canadian and United States Chief Forester, Gifford Pinchot were given the honorary degrees of L. L. D. by the university.

Secretary Wilson spoke from the viewpoint of the farmer.

"We encourage most," he said, "the workers in the factory, the forest, the mine and in commerce, causing a movement from the farm that results in limited food supply and high prices. Population outgrows production of food supplies, resulting in high prices and food shortages."

It was necessary, he said, that life on the farm be made less of a struggle against the forces of nature. The farmer's life should be made more attractive. This, he explained, could only result from the education of the agriculturist and the need for such education, he declared, pressing. "Half the people under your flag and ours till the soil for a livelihood," he continued, "the country does not insist upon representation. It is the farmer who is the backbone of the nation. It may be that our farmers are too busy or have a distaste for public life. The coming millions that live off the farm will look to agriculture to feed and clothe them. Manufacturing industries will look to the farmer for the raw materials. The banker will look to the farmer for life to their business and the balance of trade and the educated farmer will be the well-spring of all these movements."

WALL STREET TO-DAY.

(Special from United Press.) New York, June 3.—There was a much better distribution of business on the stock exchange this morning than was expected after the concentration of speculative interest in the Steel Common yesterday. Prices in nearly everything traded in moved up rapidly, material opening gains being followed by further advances in a number of important issues. Steel Common and preferred and Southern Pacific scored new records. Steel Common rose one point, Southern Pacific one point, Great Northern Ore rose over a point, Southern Pacific opened 3,000 shares at 124 1/2. Smelting showed an opening loss of one half, being the only exception.

11 a. m.—As the trading progressed during the first hour the market became strong throughout with several record making movements. Southern Pacific crossed 127 while Steel Common crossed 68 and Steel Preferred ranged above yesterday's close. An advance of over two points took place in Great Northern Ore, and Rock Island made gains of one point. London bought early but later turned seller.

Government bonds unchanged; other bonds firm.

Noon.—Market movements all through the forenoon were ruled by matters of larger importance than the shifting of position by room traders or operations for outside speculative accounts. Hence, over there were important price movements the buying was of the same nature of absorption that has been a dominating feature of the market for some time. The difference between Southern Pacific Common and Preferred stocks was materially reduced the Common selling as high as 119 and at midday were only one point below the price of the Preferred stock. Reading and Union Pacific advanced two points. Steel Preferred rose three points in still to 125. Steel Common ranged around 68 1/2. The rest of the market moved in an irregular manner.

FIVE GUESTS INJURED.

(Special from United Press.) Chicago, June 3.—A fire which started in the first story of the Belmont, on West Side this morning, badly injured five guests and several firemen were overcome by smoke. When the guests of the upper floors were awakened several jumped from windows and over there were important price movements the buying was of the same nature of absorption that has been a dominating feature of the market for some time. The difference between Southern Pacific Common and Preferred stocks was materially reduced the Common selling as high as 119 and at midday were only one point below the price of the Preferred stock. Reading and Union Pacific advanced two points. Steel Preferred rose three points in still to 125. Steel Common ranged around 68 1/2. The rest of the market moved in an irregular manner.

Chairman Scott Says Representatives from This City Are Responsible for Situation.

Unprinted, Legislators Will Not Have Subject Matter Before Them and Inclusion of "Jokers" Will Be Easy.

(By Our Staff Correspondent.) Hartford, Conn., June 3.—House Chairman Scott of the Committee on Cities and Boroughs stated to-day that the reason the amendments to the charter of Bridgeport, favorably reported by the committee, had not been printed is a matter for the representatives from Bridgeport to decide.

Mr. Scott said that the state of Connecticut did not assume the expense of printing private acts such as these are. Wonder has been expressed because the Bridgeport amendments have not been acted upon. They have been favorably reported and have been calendared for almost two weeks. Unless someone acting for the city of Bridgeport places an order for their printing the members of both branches of the legislature, when the amendments are finally taken up for passage, will have to content themselves with such knowledge concerning these amendments as may be imparted upon the floor by those who have a partisan interest in their passage.

JUDSON NAMES PECK TO SUCCEED DOTEN AS CORONER

Nomination Will be Confirmed by Judges at Their Annual Meeting in June

Appointee Was Law Partner of Deceased Predecessor, Is a Well Known Democrat and a Commissioner for the United States.

States Attorney Stiles Judson whose duty it is to fill the vacancy caused by the death of Coroner Charles A. Doten, announced to-day that he had recommended for appointment to that office, Attorney Eugene B. Peck of this city. Attorney Peck's nomination will be confirmed by the judges of the Superior and Supreme Courts at their annual meeting to be held some time this month. The laws of the state require that the coroner must be a practicing attorney.

Attorney Peck's election will meet with the approval of the majority of the people whose business brings them in close touch with this office. Mr. Peck has been an attorney since 1890. He passed the state examination a year before his graduation from Yale Law School. At the same time that When Doten became Coroner in 1890 the partnership dissolved. Since that time he has been in business for himself, being now a United States Commissioner during the administration of Mayor Mulvihill. He is an effective public speaker and a brother of Arthur T. Peck, long chairman of the Democratic town committee.

ANGRY WORDS MARK SENATE PROCEEDING

Senator Stone Jumps on Aldrich Today Over the German Tariff Statement, Charging Him with Being "Grossly Impertinent."

(Special from United Press.) Washington, June 3.—Angry words between Senator Stone (Democrat, Missouri) and Chairman Aldrich of the Finance committee over the German tariff statement which recently caused much comment in the Senate, marked today's proceedings. Aldrich intimated that Stone appeared as a representative of the German government and Stone thereupon charged Aldrich with being "grossly impertinent."

Stone remarked that in view of Aldrich's promise he was not surprised that the Rhode Island Senator's indictment of the German government last week had received notice and had given offense to that nation.

This brought Aldrich to his feet with the statement: "I said nothing about the German government but about German manufacturers sought to influence our tariff legislation by (Continued on Second Page.)"

Attorney Morehouse Tells Committee on Utilities Bill It Was to Lure Business House Into Bad Contracts.

Warm Discussions Characterize Hearing on Rates of Public Service Corporations—Price of Electricity in Norwalk 5 Cents Per Kilo Watt.

(By Our Staff Correspondent.) Hartford, June 3.—The same legislative agents, corporation lawyers, special pleaders for the interests and that ilk, whose faces are as familiar at the capital as those of the pictures that hang on capitol walls, were on hand before the legislative committee on the public utilities bill yesterday afternoon. They were trying to sweep back the tide of public opinion with a broom, and their efforts were not greeted with much success. One of the main remarkable features of these hearings is the apparent futility, not to say childishness, of the arguments that were offered against the bill. The difference between the state in the arguments, but rather in the state of public knowledge. They were in fact the same old arguments, some of which have been repeated so many times that they are as old as the hills.

Margaret Cunningham, of 856 Stratford avenue, who imagines she is being persecuted after his relatives hurried to cure him at private sanitariums. He claims that he killed the Pope, and President McKinley. His mind was unbalanced by the use of liquor and cigarettes.

Michael Judge, aged 45, of 60 Olive street, had to be removed from his home last night while suffering from a severe attack of insanity. He was taken to Lakeview Home and it is feared that he will have to be sent to Middletown. Several years ago, while employed at the works of the Bridgeport Forge Co. Judge received a blow on the head which is believed to be the cause of his trouble. On a visit to Ireland a few years ago he was stricken with the dreaded malady and had to be confined to an asylum there.

A fifth case that the Charities department is now handling is peculiar. The man works steadily every day but acts strangely at night. He insists on having a lighted lamp and a hammer on the floor beside his bed every night. He says that he is going to kill someone and he does not say who. His relatives have grave fears for his life who occupies the same room with him.

GUILFORD CHURCH EXTENDS CALL TO REV. E. L. WELLS

Decision of Rector Will Be Announced Sunday Evening to People of St. Luke's by Rev. Earl H. Kenyon.

The ancient and aristocratic Christ church of Guilford has extended a call to Rev. Edward Livingston Wells, rector for six years of St. Luke's church in New York City. The church has not yet decided what he will do. He will be absent from the service at St. Luke's Sunday evening. Rev. Earl H. Kenyon, pastor of St. Paul's church, will officiate, will make Mr. Wells' conclusion known to the parish.

The present call is the third that the Guilford church has extended to Mr. Wells within six weeks, and is the first time, it is said, in its history of 150 years that it has extended a call to a man who has been rector of another church. The church structure is a handsome stone edifice with a seating capacity of 500 persons. It has a pipe organ and a vestry choir which are liberally maintained. The church owns the proceeds of an endowment of \$20,000.

Mr. Wells is among the best known of Bridgeport rectors. He has taken a prominent part in a number of movements for civic betterment. He is an active member of the Y. M. C. A. and is the members of his parish and his brother clergymen.

CONFERENCE TODAY ON HATTERS' STRIKE

(Special from United Press.) Danbury, June 3.—While some of the more unprincipled members of the United Hatters' Union of North America seemed convinced that today's conference would bring to an end the five months' struggle in which they have engaged, others were less hopeful and when the committee went into session this afternoon opinion as to the outcome was widely divided.

The strikers are represented by officers of the National Union. They are meeting the Rev. J. H. Kennedy, pastor of St. Joseph's Roman Catholic church, and Rev. H. E. Meserve, pastor of the First Congregational church, who while not officially elected as representatives of the manufacturers are understood to be empowered to discuss a compromise and report to the manufacturers, the latter being bonded by the association to take no action as members of that organization.

The pastors, it is generally believed, hope to announce an acceptance of terms by the manufacturers.

FIVE INSANE THE RECORD FOR 48 HOURS IN CITY

Mind of Keating Said to be Unbalanced by Use of Liquor and Cigarettes.

Another Received a Blow on the Head and Has Never Since Been Right—Fifth Sleeps with Lighted Lamp and Hammer at Bedside.

Investigator Morrissey of the Charities department whose duty it is to look after insane cases is a very busy man these days. In the past 48 hours he has handled five cases. William Keating, aged 24 years, residing at 185 Wade street, was taken to Middletown, a hammer under his pillow, hurried to cure him at private sanitariums. He claims that he killed the Pope, and President McKinley. His mind was unbalanced by the use of liquor and cigarettes.

Margaret Cunningham, of 856 Stratford avenue, who imagines she is being persecuted after his relatives hurried to cure him at private sanitariums. He claims that he killed the Pope, and President McKinley. His mind was unbalanced by the use of liquor and cigarettes.

Michael Judge, aged 45, of 60 Olive street, had to be removed from his home last night while suffering from a severe attack of insanity. He was taken to Lakeview Home and it is feared that he will have to be sent to Middletown. Several years ago, while employed at the works of the Bridgeport Forge Co. Judge received a blow on the head which is believed to be the cause of his trouble. On a visit to Ireland a few years ago he was stricken with the dreaded malady and had to be confined to an asylum there.

His relatives have grave fears for his life who occupies the same room with him.

FLAG RAISING DAY FOR CHICAGO CUBS

(Special from United Press.) Chicago, June 3.—To-day will be "Flag Raising Day" at the Chicago National League Park. The world's championship flag which the Cubs won last year will be raised. The star attraction will be the presentation of \$10,000 to the Cub team which was offered by President Murphy in the event his protegee pulled down the flag straight pennant. A check for the amount will be given to Manager Chance who will divide into twenty-two equal parts each player receiving \$454. The ex-players of the Cubs who aided in winning the pennant and who will not be rewarded are Pitchers Coakley, Frank Lagaren, Quelder Stagle and catcher Johnny Kling.

The flag raising will be preceded by a parade around the grounds after which the Chicago team will play the Phillies.

HELD FOR BURGLARY

(Special from United Press.) Bristol, June 3.—Charles E. Curtis, seaman on the United States battleship Maine, and John Ryan were arraigned today on a charge of having burglarized the New Haven railroad freight station. They were bound over in the sum of \$300 each. Curtis was arrested while on a furlough home and the police say made a confession. The robbery with which they are charged occurred in January.

Three Inch Gas Main Breaks and Gas Ignites in Tunnel at Main Street and Fairfield Avenue in Which Five Men Were Employed Excavating for Water Main.

Fire Department for An Hour Poured Water Into Hole Without Result—Column of Fire Shot Into Air Until Pipe Was Cut and Wooden Plugs Inserted — Business District Largely Deprived of Communication—Trolley Service Impeded and Traffic by Team Sent Through Other Streets — Electric Wires Unharmed.

Five workmen employed on the night gang of the Bridgeport Hydraulic Company, laying a water pipe through Main street, narrowly escaped death in the tunnel they had burrowed beneath the street at its junction with Fairfield avenue, when, at 4 o'clock this morning, a three inch gas pipe broke, and a tongue of flame shot out of the mouth of the tunnel and many feet into the air.

Three escaped practically unhurt, but John Lynch of Dewey street was badly burned about the face and his hair and eyebrows were burned off, while Antonio Picciella, 46 N. Washington avenue, was burned about the face and right arm.

The injury to traffic and telephone communication, was, however, very serious. Because the Bridgeport Gas Light Company had no shut off near the point the burning jet could not be deprived for more than an hour or two of its supply of gas. The temporary double telephone wires, cutting off the service from many homes, factories and retail business places. The jet also blew away the wires from beneath the costly special work of the Connecticut Co., until the main was cut at a place distant from the blaze and plugs were inserted at the point.

This despite the fact that for more than an hour the fire department poured water into the tunnel. The jet was under pressure and water had no effect upon it.

The telephone company immediately began the work of reconnecting the wires. Many houses and business places were without service.

Under the Direction of Superintendent Chapman the work of shoring up the tracks was begun. The temporary tracks were laid on the new pavement is laid on Main street and then the damage will be permanently repaired.

It is probable that the trolley company and the telephone company will send bills to the gas company for the damage done. Whether the gas company will pay the bills is a question upon the Water company remains to be seen.

There is some uncertainty as to the way in which the accident happened. The stories vary from a statement that the gas main was not properly shored up, to statements that it was struck by a pile of lumber which was being moved. That heavy cables fell on it. As to how the gas ignited, various theories are that it was fired by contact with electric wires; that a spark was struck from a pick or a torch in the hands of a workman did it.

The injured workmen were cared for by Dr. Gordon and the Emergency hospital staff.

The public services of the city could scarcely be struck in a more vital spot than this. The telephone wires are taken into the office of the company a few rods above, on Fairfield avenue. The many electric light wires are also crowded in the same trench. These fortunately escaped, the flames taking another direction. To-day traffic by teams was sent around the street, the trolley cars are greatly inconvenienced, and laying the water main cannot continue until the repairs on telephone wires are completed.

AUTO SPEEDERS GO TOO FAST IN FAIRFIELD

An auto bearing the number 6315 went through Fairfield, Sunday afternoon, at 5:25, at the rate of an eighth of a mile in 14 seconds. Thirteen minutes later a machine numbered 228 went through a trifle faster. The town authorities asked the state police for help. Officer Frank Viorelli found that the first machine was owned by De Ver H. Warner, son of De Ver H. Warner, the well known manufacturer, of this city. The young man had used a little bit of speed. The other machine was owned by Mrs. B. P. Ballard, Park Place, and driven by her son. He also had miscalculated the speed with which the machine was going. Young Mr. Warner forfeited a bond of \$25 in Justice Bacon Wakeman's court, Fairfield, this morning. Young Mr. Ballard appeared, and the case against him was nolleed on payment of costs amounting to \$23.40.
